It Frequently Happens

that people who make individual loans are bothered in the collection of interest; that they often have difficulty in getting back the principal, and sometimes lose it altogether. Those who deposit their money in this bank are not thus annoyed, for here they get their interest promptly every 6 months. And, better still, they have the satisfaction of feeling that their money is at all times safe, and that the bank is prepared to pay back the principal when needed. 4 per cent. interest paid on all Savings accounts.
